

Gower Cycling Festival

Route description for North Gower Circuit

A clockwise circuit is described. This gets the climb over near the start and provides good views to the west during the descent from Three Crosses to Llanrhidian. The route is described from Dunvant car park (free parking). This is a mile up the Clyne Valley cycle path (NCN 4) from the Railway Inn. (a) [0.5], etc. are stages and stage distances in miles; **D** = cumulative distance to end of stage.
