

Junctions

in Swansea across which priority for path users needs to be made clear.

The table below lists junctions on ATNM routes alongside roads where a path (usually a SUP) crosses side roads and the priority of path users over traffic turning across the path needs to be made clear. The routes are identified by the characters used on the four maps on Wheelrights website Infrastructure page. The number after the “-” identifies the photo (where applicable). Only junctions where this is an issue are listed. (Last update: 13 July 2023.).

Id	Location	Comments.
GAP	Bishopston - Mayals (B4436)	* All junctions.
MR-1	Mayals Road (B4436; GR:606900)	* Fairwood Road. (Rest OK)
PG-1,2	Penllergaer (A48): A483 crossing	Controlled crossing needed.
LP/VW1-1	Penllergaer Woods, N. end. (GR:623992)	*
CT	Crossing of Somerset Place (GR:659929)	Case for a controlled crossing .
HB	Morfa Road	* All junctions.

* Continuity of path across junction needs clarification: surface colouring and/or edge marking.
