1. Second Website – Progress seems to have stalled. Nick suggested that he speaks with iCreate in the Uplands to see if they were able to assist. ACTION N.G. and D.R.
2. Future meetings – Go Safe was an interesting subject last Tuesday evening and JS has already followed up with an Email. It was agreed that the hybrid format was a success and would be continued. ACTION NG to try and find future speakers.
3. Pre-election campaign – The I.P.P campaign was a success and JS wanted to build on this with a campaign about barriers. ACTION JS to make contact with disability group and parent group to see if we could run a joint campaign.
4. Swansea Council – JS reported on meetings with Julie James A.M. and Jack Palmer a new Active Travel Officer who will be involved with engagement issues. There was a discussion about the letter from Stuart Davies. Head of Service. ACTION JS and DR to take up his offer of a zoom meeting.
5. Future CAP/AT meetings – As other users will now be involved in the new meeting format, it was important that we make contact with others like the rambles. ACTION D.R.
6. ATNM – Still no news of the approval of Swansea’s draft map. JS reported on a discussion he had had with a North Wales, campaigner Richard Brunstrom who is leading a review of campaigners throughout Wales. ACTION J.S to ask Chris Roberts for an update.
7. CPGATA – A review of the Active Act is now being undertaken by A.M.s and a list of questions to be answered by February 22nd was circulated. ACTION JS and D.D to put a draft response together and ask for comments before submitting.
8. Safe Cycling leaflet – NG showed us copies of several existing leaflets, as Bikeability was keen to produce one that had a positive image of cycling. Agreed that WR should be a partner if at all feasible. ACTION N.G. to speak to other bodies and report back.
